## EDUCATION

### Computer Science And Engineering Sardar Vallabhabhai National Institute of Technology

12/2021 - Present

Surat, Gujarat

Academic Detail

- Expected Graduation : 2025
- CGPA till 3rd Sem: 9.08

## PERSONAL PROJECTS

### BharatEcom:Ecommerce Website (01/2001 - Present)

- BharatEcom is a full stack web application.
- Proper authentication is done with bcrypt and jwt. i resolved problem with cookies where cookie is not storing in client side because of two different domain hence i make both frontend and backend to one domain.
- Restful api's provide different kind of facility like user can search than it provide filtered data and pagination where added with each request.
- custom error handler are used to handle every possible error.

### SocialMedia Application : BharatSocials (10/2022 - 01/2023)

- BharatSocials is a Full Stack web application where user can register/login with their credentials.
- Frontend part of BharatSocials is developed with ReactJs and Saas .
- BharatSocials uses JWT authentication and REACT-REDUX-TOOLKIT for storing data of current logged user on current browsers local storage.
- Backend Part of BharatSocials is developed in Node.js express with NO-SQL database as MongoDB.
- Proper Password encryption and user-authentication is done with bcrypt for hashing password.

### ToDoList WebApp (09/2022 - 10/2022)

- ToDoList WebApp is a Full stack web application based on MERN stack in which User can create/delete/complete the tasks .
- Frontend part of ToDoList is developed in ReactJs for better performance and reducing request on server.
- Backend part of ToDoList is developed in express(Node.js) ,which help to make different request to the server with the help of different api.
- All the data is stored in MongoDB servers which is accessible by user with the help of different request.

### Disney-Hotstar Clone-Frontend Project (05/2022 - 08/2022)

- Web app uses React Js to creating amazing Disney hotstar design.
- Web app fetches details of movies from TMDB api and showed to user.
- Integrated with Recommendations of the movies with recommendations apis provided by TMDB.

## ACHIEVEMENTS

### 200+ DSA Question's on Leetcode

Solved 200 questions on Leetcode Platforms and managed in top 52.40% on leetcode platform

08/2022

## SKILLS

## AWARDS

### ACM Inception 7.0 Winner

I got 1st rank in acm inception 7.0 mirror contest which is held for 2nd yearities of svnit on CodeForces platform.

## ORGANIZATIONS

### Google Developer Student Club- SVNIT (10/2022 - Present)

Junior Developer

## LANGUAGES

Hindi

Professional Working Proficiency

English

Limited Working Proficiency

Gujrati

Full Professional Proficiency
